

100% "Swiss Made" Asset Management

International edition

About us

- As **Swisscanto Asset Management International S.A. Luxembourg**, we are present in selected Western European countries and offer our customers an attractive selection of **active and sustainable fund solutions** under the **Swisscanto product brand**.
- Our investment funds are developed and managed centrally in Zurich by around 230 recognised specialists in **Zürcher Kantonalbank's Asset Management**. Our funds regularly win awards.
- As a pioneer with over 27 years of experience in the area of sustainable investments, we are committed to the Paris Climate Agreement and have been applying **binding CO₂e reduction targets** in our Responsible and Sustainable funds since 2020.

Sustainability is our conviction

We actively influence ESG issues and climate protection, and demand and promote sustainable business practices and adherence to recognised international principles and ESG best practice standards. To this end, we exercise voting rights in line with our sustainable thinking and strategy. Companies are urged to set ambitious CO₂e reduction targets, implement them consistently and report transparently on them. Our Responsible and Sustainable product lines rely on extensive exclusion criteria and systematic ESG integration. Our conviction is that this leads to more informed investment decisions and contributes to a better risk/return ratio in our investment solutions. We attach great importance to climate

protection in our investment solutions. Our sustainability standard pursues a CO₂e reduction target of 4% and the majority of our Sustainable Solutions 7.5% annually. These reduction targets are based on the Paris climate target of limiting global warming to well below 2 degrees or 1.5 degrees Celsius by 2050.

What we offer

Swisscanto Asset Management International S.A.'s core offering includes solutions in the common asset classes of equity, fixed income, multi-asset and real estate. Our sustainable thematic funds are an efficient way to invest globally in future trends – these are: Water, Climate, Innovation Leaders. On the fixed-income side, we also offer attractive and sustainable investment opportunities with specialities in the areas of high yield, emerging markets, CoCo, absolute return and corporate hybrid.

All our fund solutions meet the requirements of the EU Disclosure Regulation (SFDR) for sustainable funds pursuant to Article 8 or 9. With our modular product range, we enable our customers to access our funds flexibly and in line with their needs.

As the asset manager of our investment funds, Zürcher Kantonalbank is one of the largest fund managers in Switzerland with the Swisscanto product brand and an established partner for banks, institutions and pension funds. With its sustainable solutions, it is now also one of the leading sustainable asset managers in Europe.
